

My daughter has been going to Head Start in Fishs Eddy for two years! The staff is beyond amazing and so compassionate! We have been so lucky for the staff especially through COVID-19! As my daughter moves to Pre-K next year we will miss the staff very much! We will miss the activities that we have done at home and I know she will miss singing with her teachers! My daughter is a picky eater and they have always gone above and beyond with helping her try new foods and have been so supportive when she didn't want to eat something! I am so thankful for them! And glad they will be there next year when my son can attend!
